Introduction

Hi my name is Darwin Kloud and thanks for downloading Jooblay's free ebook Time & Money. My partner Sara Spring and I are excited to get started. Before we do it is important for you to understand a couple of key business terms that we will use in this book.

- System- The written foundation of your policies & procedures.
- BusinessKloud- Details a Business Plan, Investor Prospectus & Operational Manuals.
- KloudRoom System- The state of creating, planning and building a system.
- KloudRoom Plan- The Plan from what is created in the KloudRoom.

Now with that covered lets get started into this exciting experience. We understand that for first timer's you may be as excited as us. But for the more experienced and road traveled entrepreneur this could be a very tough trip. We will not lie to you it is easier to start out right than it is to go back and fix a business. But your in good hands we have learned a lot along the way and look forward to helping you. Just take a moment to give your self a great big hug. You can do this!

The topic of this ebook is Time & Money. In Chapter 1 Start Your KloudRoom we discuss the basic process of creating, planning and systemization. In Chapter 2 Our KloudRoom we will talk about our creating, planning and system. In Chapter 3 The beginning we will wrap Time and Money together.

Chapter 1 Start Your KloudRoom

How often does a good idea go to waste? How often does a business fail? How many times do you have to fire your employees? How many times have you been late? You feel tired? You are unhappy? These are all symptoms of businesses started wrong. Please do not take this personal remember this is business or it is supposed to be... Right. I have traveled all around the world and one thing you see in common are these very real symptoms of business. From yerba mate fields in Argentina to cut and sew shops in India right down to main street. The story is the same. Just like going to the doctor when you feel sick or even worse when your child is sick. Many people do not realize that this is not the way it has to be.

Through 3 key steps you can turn any business around fast. I know you are saying but my product just is not selling. Or I just need a good line of credit and then it will work. Well I will tell you a secret, I know you have heard that Walt Disney sold his car to make the first cartoon with color. But that is not how Walt did it. Mr. Walt Disney captured the KloudRoom, created a plan and then executed the system.

Take it from me I know because I am a survivor. I have been running businesses since I could walk. I sold products, I offered services, I ran them all, some times I would do 3 or 4 at a time. If they did not work then I worked harder. If I did not make enough then I worked more. If they laughed I drove harder and faster. As time passed and I got older I think I was 19 I started to see a cycle. I saw a cycle in the way I was conducting business. It was all about me. If someone sold the product then it was me. If a customer called I answered. This is a dead end. I know you are so important that no one else can do your job. But brothers and sisters this is a lie. Does the owner of UPS deliver your package? Or for that matter imagine all the packages they deliver how do they do that?

Following this time I started to wonder why some businesses made it and some failed. I started looking at my life in 2 forms. Personal and Business. I am not my business and my business is not me. Just because my business fails does not mean that I fail. No my plan or system failed. Just because my business is successful does not mean that I have been. No human wants to buy a job. This separation created a clear vision of what business really is. For me it is a creation or an invention just like anything else you create. Right! How many times have you been sitting with family or working on your daily movements and boom it hits you. THAT IS A GOOD IDEA! HEY I BET YOU COULD MAKE A BUCK OFF THAT! Funny right! Well everyone has felt this sooner or later in their life what is different is what you did after the idea. Some like me when I was a young KloudRoom Pilot would run over the hill with this new great idea and make it work. That is were the heart comes in. "The Tough Get Going When The Going Gets Tough." That is what my mom always told me. Well funny... I have lived that. But like I said then I ran into an issue, you can not run it forever. This is your KloudRoom. If you can manage this you will be on your way.

Now after that big idea instead of running off and driving it to work. Switch it up

and make a plan. Lay the ground work and create a plan that works for you. Plan how you are going to create this master piece. The plan will take you far if you follow it. Just like any good plan it needs to be practiced. Take time to run your plan. This will bring you more than you know.

Last now that you have your KloudRoom and a Plan put them together and make a KloudRoom System. This is the last and many times the hardest part I will not lie. Trying to put you KloudRoom Plan back on earth can be painful. This is the times you will realize this idea is crazy and doubt that it will work at all. Your system is where it all comes together. You need to focus on Sales, Market, Operations and Finance. Pay special attention to your process.

POP QUIZ Are you free to take time off? The answer is that you should be and how you do it is Structure.

POP QUIZ Are you making the income you want? The answer is that all the money in the world is waiting for you to obtain, you just need to control the **KloudRoom System**.

POP QUIZ Do you hate your Business? This is often a very surprising question for business owners and even more surprising to many the answers that we get. 56% of our customers answer Yes! I do not like my business. The smell in the morning when you walk through the door, the sound of the phone ringing or no phone ringing at all, the constant stress of questions from employees. You can stay like this. Or well you know!

POP QUIZ Are you missing family activities, working? The answer should be absolutely not that is why you started your own business. Lots of people have Time! And lots of people have Money! But very few people on the planet have Time and Money.

Chapter 2 Our KloudRoom

Our KloudRoom is not just so you can see that we practice what we preach. But rather our system works so well that we create using the same methods. Just like you we have explosions of creativity. Like any master piece it takes time to create. Some of the best masters of this have been the great artists through out time. Some pieces of work can take years to complete. Some creations never stop evolving. Well just like a great song a business takes week, months if not years to finish depending on the business. The process is the same. Start in the KloudRoom and then Plan followed by a System. This is the pattern that we have followed for many years to create and now we would like to trade our information to you for something of equal value. Remember that there are many forms of money.

Jooblay's Turnkey BusinessKloud

The Turnkey BusinessKloud is a total business package that details an in depth look at the potential business as a whole. We provide this exceptional service with ideas that we think have good potential to grow into large businesses. Our Turnkey BusinessKlouds are set up to run like a professional business right from the start. Our team spends between 3 & 6 months writing the complete BusinessKloud. That is 300 to 900 hours on each BusinessKloud. That is one of the reasons that we know there is so much potential in these businesses. We have laid out the whole business for the first year. Starting with an in depth professional Business Plan followed by a strong Prospectus. This is the heart of the plan. Our BusinessKlouds are professional so you can take pride in presenting the plans with confidence. Talking to investors can be stressful when you do not have a complete BusinessKloud that is why we have spent so much time. Next we take the Business Plan and Prospectus and build a rock solid WorkMovement Manual for the 1st year of Operations. This is the back bone of your business and anyone that is serious about investing knows that your WorkMovement Manual is where the real business lays. Now we take all this and wrap it up in one of the strongest Legal Entities in the World, a Delaware Corporation. This is what puts the finishing touches on your BusinessKloud.

We now have Turnkey BusinessKlouds in the following industries:

Retail ~ Beverages ~ Coffee & Tea ~ Action Sports ~ Medical Cannabis ~ Textiles
Travel ~ U. S. & Global Manufacturing ~ Service Industry ~ Trades ~ Nonprofits
News Media.
